

PRESS RELEASE

APPROVAL ON A VOLUNTARY BASIS OF THE INTERIM MANAGEMENT REPORT FOR THE PIERREL GROUP AND PIERREL S.P.A. AT 31 MARCH 2020

- ✓ **Results at 31 March 2020 affected, both in terms of revenues and EBITDA, by the postponement in the first days of April 2020 of the shipment of some batches of Orabloc®, due to logistical problems due to the ongoing health emergency, but already recovered at the end of the first quarter of 2020, whose data are in line with both the results achieved by the Group at 30 April 2019 and the budget forecasts, which have been confirmed for the whole year 2020.**
- ✓ **Consolidated results at 31 March 2020:**
 - **Revenues of about € 4.1 million**, showing a decrease of some 24% compared to 31 March 2019, when they were about € 5.4 million;
 - **EBITDA positive for about € 0.5 million**, showing a decrease of about 54% compared to 31 March 2019, when it was positive for about € 1.0 million.
 - **Positive EBIT for about € 0.2 million**, of which about € 0.3 million for amortization, a decrease of some 70% compared to 31 March 2019, when it was positive for about € 0.7 million (of which about € 0.4 million for amortization);
 - **Consolidated net loss of about € 0.1 million**, in contrast to the consolidated net profit recorded at 31 March 2019 of about € 0.3 million;
 - **Consolidated net financial debt of about € 6.9 million**, in line with 31 December 2019, when it was about € 6.8 million;
 - **Cash and cash equivalents of about € 5.8 million**, showing an increase compared to 31 December 2019, when it was approximately € 5.5 million.

Capua, 14 May 2020 – The Board of Directors of **Pierrel S.p.A.** ("**Pierrel**" or "**the Company**") met today and revised and approved on a voluntary basis the **Interim Management Report of the Pierrel Group and the Company at 31 March 2020**, prepared in accordance with IAS/IFRS international accounting standards and not subject to legal audit.

The results recorded by the Company and its only subsidiary Pierrel Pharma S.r.l. with a sole shareholder ("**Pierrel Pharma**" and, together with the Company, the "**Pierrel Group**") in the first quarter of 2020 show a linear and positive trend in the Group's production and commercial activities despite the problems connected with the ongoing health emergency. The decrease in the value at 31 March 2020 of some of the Group's main economic and financial indicators is in fact mainly attributable to the postponement in the first days of April 2020 of the shipment of some batches of Orabloc® product, destined for the North American market, due to logistical problems deriving from the regulations adopted locally and in the world to tackle and contain the spread of the Covid-19 virus. However, these discrepancies were already recovered at the end of the first quarter of 2020, the data of which are in line both with the results achieved by the Group at 30 April 2019 and with the forecasts of the budget approved by the Company's Board of Directors on 26 April.

In detail, the Company and the **Pierrel Group** closed the first three months of 2020 with **consolidated revenues** of approximately € 4.1 million, showing a decrease of about 24% compared to the approximately € 5.4 million achieved in the corresponding period of 2019 and a **positive consolidated EBITDA** of about € 0.5 million, a worsening of about 54% compared to 31 March 2019, when it was positive for about € 1.0 million. The reduction of the main economic indicators (gross revenues and EBITDA) of the Company, both at consolidated level and stand alone, at 31 March 2020 compared to the corresponding data recorded in the same period of 2019 is attributable to the logistical problems highlighted above.

Here follows a brief description of the business performance and management results at 31 March 2020 of the individual divisions Contract Manufacturing - CMO, Pharma and Holding of the Pierrel Group.

The **CMO Division** recorded in the first three months of 2020: (a) total sales, gross of intercompany eliminations, of approximately € 4.5 million, a decrease of some 10% compared to the € 5.0 million recorded in the same period of 2019; and (b) a positive EBITDA, gross of intercompany eliminations, of approximately € 0.8 million, a decrease compared to the same period of 2019, when it was positive for approximately € 1.3 million.

The **Pharma Division** recorded in the first three months of 2020 total sales, gross of intercompany eliminations, of approximately € 2.1 million, a decrease of some 45% compared to the € 3.8 million recorded in the first three months of 2019; and a positive EBITDA of approximately € 0.3 million, a decrease of some 62% compared to the same period of 2019, when it was positive for approximately € 0.7 million for the reasons stated above.

The **Holding Division**, which does not generate revenues, recorded a negative EBITDA for the first three months of 2020 of some € 0.4 million, in line with the result at 31 March 2019, when it was a negative € 0.3 million.

Compared to the plan forecasts approved by the Board of Directors of the Company on 26 February 2020, the turnover and EBITDA data recorded by the CMO, Pharma and Holding Divisions as of 31 March 2020 bear the negative effects of the reasons in the premise that led to the turnover shift of approximately € 1 million in the first days of April.

The Pierrel Group recorded a positive **EBIT (operating result)** at 31 March 2020 of about € 0.2 million, after amortisation of around € 0.3 million, a decrease of some 70% on the figure of 31 March 2019, when it was positive for about € 0.7 million, after amortisation of around € 0.4 million.

In addition, it is noted that the Pierrel Group at 31 March 2020 recorded net financial expenses of about **€ 0.3 million** (in line with the figure at 31 March 2019). This item also includes **net notional financial income** from discounting and from currency adjustment, totaling around **€ 0.2 million**, linked to the payable (stated in US dollars) still due from Pierrel to the American customer Dentsply International Inc. of around € 6.3 million at 31 March 2020, by way of interest and capital stock.

In light of the above and for the reasons briefly illustrated above, at 31 March 2020 the Pierrel Group recorded a **consolidated net loss** of approximately € 0.1 million, in contrast with the consolidated net profit recorded by the Group at 31 March 2019 equal to about € 0.3 million.

The **net financial debt** of the Pierrel Group at 31 March 2020, which includes a current financial debt of approximately € 2.1 million (approximately € 1.8 million at 31 December 2019), amounted to some € 6.9 million, in line with the figure at 31 December 2019, when it was about € 6.8 million.

The **consolidated cash resources** of the Pierrel Group at 31 March 2019 was about € 5.8 million, an increase compared to 31 December 2019, when it was about € 5.5 million, due to higher collections recorded in the quarter compared to 31 December 2019.

As of 31 March 2020, none of the Pierrel Group companies has issued bonds.

At 31 March 2020 the Pierrel Group's **overdue debts** to suppliers amounted to around € 1.1 million (around € 0.7 million at 31 December 2019), while those to Fonchim (supplementary pension fund for chemical and pharmaceutical workers) reduced to around € 0.138 million (compared to around € 0.169 million at 31 December 2019) due to payments made in line with the repayment plan announced by the Company.

During the first quarter of 2020, the consolidation scope of the Pierrel Group did not change significantly compared to the closing date of 2019.

With a provision dated 23 May 2019, the CONSOB ordered the cancellation of the Company from the "Black list", eliminating the monthly disclosure obligations relating to the economic-equity and financial situation of the Pierrel Group pursuant to art. 114, paragraph 5, of Legislative Decree no. 58/98, as subsequently amended and supplemented. The **net financial position** of the Company at 31 March 2020 was negative for about € 2.2 million, in line with the figure recorded at 31 December 2019.
